### **EXAMINER'S AMENDMENT**

#### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/23/04 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Kent on 4/26/04 and 5/10/04.

The application has been amended as follows:

#### **IN THE SPECIFICATION:**

In the Brief Description of the Drawings,

At page 4, replace "Fig. 2" with "Fig 2 (a)- 2(d)".

At page 5, replace "Fig. 7" with "Fig. 7(a)- 7(b)".

#### **IN THE CLAIMS:**

In claim 1, line 6, before "an etching step", insert "performing"

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a plasma etching process including the step of the film formation time being increased relative to the length of etching time as the etching process progresses wherein the etching and deposition steps are sequentially repeated as the context of claim 1.

The closest prior art Okudaira et al (4,985,114) disclose a process, wherein etching and deposition is carried out in an alternate fashion and the length of individual etching and deposition or film-forming steps are adjusted to maintain a constant value such as 3 seconds for etching and 10 seconds for deposition as the etching process progress (col.2, 41-63 and col. 6, lines 18-23).

Okudaira et al fail to teach or suggest the film formation time being increased relative to the length of etching time as the etching process progress as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
